

World Federation of Pediatric Intensive &  
Critical Care Societies

## Taking Stock of Pediatric Intensive Care Research During a Global Public Health Emergency

### Date:

- **Session 1:** Monday, July 27<sup>th</sup>

### Times:

- 6 AM LA / 9 AM New York / 10 AM Buenos Aires / 3 PM Milan/  
9 PM Singapore / 11 PM Sydney

### Session 1 (120')

#### **1. Research While Most Eyes Are on Clinical Care – ethics & governance**

- a. How do we balance pandemic research versus patient care?
  - b. How do we manage to keep current research efforts moving forward during a pandemic?
  - c. Who should decide priorities to promote an efficient and unified process (if that is even possible)?
- **how do a, b, c differ between resource settings**

#### **Speakers**

- Anna Camporesi (Italy)
- Judith Wong (Singapore)
- Ezequiel Monteverde (Argentina)
- Cíntia Johnston (Brazil)

## **2. Research Best Practices – approvals, screening, consent, and data collection**

- a. How do we deal with IRB approvals if the normal channels are not available?
  - b. What is the accuracy of remote versus onsite screening during a pandemic?
  - c. How is consent handled during a pandemic when visitations are not allowed? Is phone consent allowed and ideal? Other approaches? Should consent via Zoom (or other similar platforms) be encouraged?
  - d. Should pandemic patients be enrolled in general research studies? Should research protocols be retrofitted to support enrolment of patients with pandemic-related disease?
  - e. Can real-time collection and analysis of data take place if b, c, or d, are not in place?
- *how do a, b, c, d, e, differ between resource settings*

### **Speakers**

- Donna Franklin (Australia)
- Laurie Lee (Canada)
- Pablo Vásquez-Hoyos (Colombia)
- Daniela De Souza (Brazil)

### **Q&A**

### ***Summary – lessons learned Session 1***

Critical Care Societies

## Taking Stock of Pediatric Intensive Care Research During a Global Public Health Emergency

### Date:

- **Session 2:** Thursday, August 13<sup>th</sup>

### Times:

- 6 AM LA / 9 AM New York / 10 AM Buenos Aires / 3 PM Milan/ 9 PM Singapore / 11 PM Sydney

### Session 2 (120')

#### **1. Collaborations**

- a. What happens to global/regional research collaborations and how can coordination be optimized?
- b. how do we optimally/efficiently include different subspecialties i.e. infectious diseases?
- c. How can (or should) centers / investigators be enticed to partner rather than function independently?
- d. How can funding agencies help to streamline the process?
- e. How do individual centers decide which study(ies) to join?
  - **how do a, b, c, d, e differ between resource settings**

#### **Invited speakers**

- Srinivas Murthy (Canada)
- Lyvonne Tume PhD, RN (UK)
- Arun Bansal (India)
- Sandy Staveski (USA)

## 2. Communications

- a. How can the Peds ICU community share data among its community in a way so that the truth and useful information is not missed or lost in all of the 'chatter'?
  - *What is the role of the scientific journal (PCCM) and social media to separate the facts from the noise?*
- b. Which resource(s) (journal, twitter, wechat etc) is(are) accessible to Peds ICU in different parts of the world?
  - **how do a, b, differ between resource settings**

### Speakers

- Sapna Kudchadkar (US)
- Miguel Rodríguez Rubio (Spain)
- Roberta Esteves Vieira de Castro (Brazil)
- Sunit Singhi (India)

### Q&A

### *Summary – lessons learned session 2*
