

Workshop Title:

TRANSPORT OF THE CRITICALLY ILL CHILD WORKSHOP

Workshop Date / Time:

June 1, 2024 / 08:00 - 12:15

Workshop Type:

In-person Half-Day Workshop with theoretical part provided in advance

Workshop Organizer:

Renan Orellana

Workshop Moderator:

Gonzalo García Guerra

Workshop Facilitators:

TBC

Learning objectives:

To instruct training for an efficient and high-quality medical transport of the pediatric critically ill patient,

1. which facilitates early resuscitation at the reference site, before and during transport.
2. in which communication is the base of the successful overlap of patient care between the referring entity, the receiving entity and the transport team.
3. in which multidisciplinary teamwork guarantees quality in critical care during a pediatric transport.

Workshop program

08:00 - 08:05 Introduction

08:05 - 08:20 Physiology and stabilization of the critically ill during transport

08:20 - 08:40 Critically ill transport systems, modes and communication

08:40 - 09:00 Critically ill transport team operational apparatus

09:15 - 10:15 Clinical simulation. Concept integration scenarios

1. Triage and communication

2. Critical transport

10:30 - 11:30 Clinical simulation. Concept integration scenarios

3. Rapid Response Teams

4. Crisis resource triage and management

11:30 – 12:00 Conclusions. Course evaluation
